

CONVERT-A-BALL

With the gradual change to the New Zealand standard, many people are left with the problem of changing tow balls between 1 7/8" and 50mm in order to tow their trailer, boat or caravan.

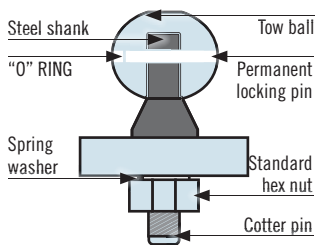

Introducing Convert-A-Ball, the easy way to switch tow balls in seconds. The diagram opposite shows just how simple Convert-A-Ball is to use. Available with 3/4" and 1" shanks.

All designs are rated to international standards.

| PART NO | BALL SIZE | THREAD | SHANK LENGTH | FINISH | CAPACITY |
|----------|---------------|----------|--------------|--------|----------|
| TE15CB19 | 1 7/8" & 50mm | 3/4" UNF | 52mm | Chrome | 2270kg |
| TE15CB25 | 1 7/8" & 50mm | 1" UNF | 52mm | Chrome | 4500kg |

CROSS-SECTION VIEW
