

HYDRAULIC OVERRIDE COUPLINGS

TE4C798Z

BOLT PATTERN

CM hydraulic override couplings are supplied standard with CM's innovative new design registered master cylinder with a 5-degree port entry. The CM designed and patented sturdy foldaway handbrake lever is also supplied as standard.

Folding handbrake lever and bracket also retrofits to these coupling brands: Trigg, TWL, Ark, Trailparts.

- Tested and complies with NZS5232
- Stainless steel fasteners
- Padlock facility

With CM's new master cylinder with 5° port entry, the tubing is more compact.

Foldaway handbrake lever

5-tooth precision ratchet

Flexible hoses sit low for a neat and tidy appearance.

After major FEA research, CM has redesigned the 1040 mainshaft

CM's intuitive folding handle mechanism

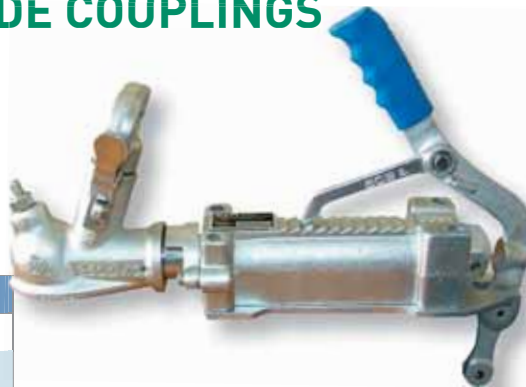

PART NO	SIZE	CAPACITY	APPLICATION	FOLDING LEVER	FINISH
TE4C798LZ	17/8"	2500kg	Light: Up to 1250kg	■	Zinc plated
TE4C798Z	17/8"	2500kg	Standard: 1251kg - 2500kg	■	Zinc plated
TE4C799LZ	50mm	2500kg	Light: Up to 1250kg	■	Zinc plated
TE4C799Z	50mm	2500kg	Standard: 1251kg - 2500kg	■	Zinc plated

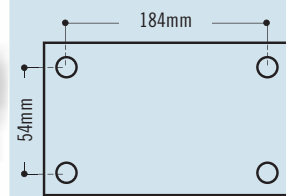

MECHANICAL OVERRIDE COUPLINGS

Mechanical override couplings supplied complete with base plate.

Attractively finished in zinc plating.
