

12 VOLT ELECTRIC/HYDRAULIC BRAKE ACTUATOR

TE5EHB1000 for Drum Brakes
1000PSI Kit

TE5EHB1500 for Disc Brakes
1500PSI Kit

KIT CONSISTS OF:

BrakeRite Actuator
20amp Battery and box
Breakaway switch

Original BrakeRite EHB –
A proven track record of
performance and reliability!

Designed to be hard-wired into your trailer's
electrical system. All components contained
under BrakeRite's cover.

Fast response time – 0.4 second (400ms)
response to begin dynamic braking.
1500psi in 1 second.

12-month manufacturer's warranty.

Designed for prolonged use – The circuit

board is
designed to withstand
prolonged application
(15 minutes).

Breathable unit – The BrakeRite is
not sealed and allows the enclosure
to breathe – if moisture is present it
evaporates and dries out with use.

Protected circuit board – the circuit board
is coated to prevent damage from moisture
and mould.
