

CARAVAN PARKING LEGS

TE9JW05 (Priced per pair)

Caravan parking legs with twin outrigger and complete with crank handle.

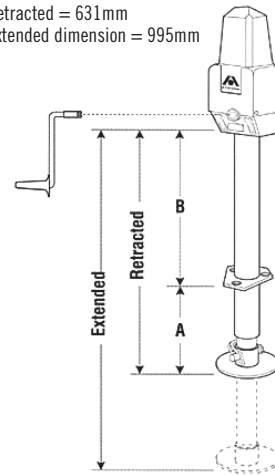

ELECTRIC A-FRAME JACK

TE9JW1130

The convenience of push button operation takes the exertion out of cranking, effortlessly raising or lowering trailers with complete control. These jacks are permanently lubricated and trouble-free to use. They require little maintenance and use a rugged 12v electric gear motor that has been well proven over years of use under adverse conditions.

A = 257mm
B = 374mm
Retracted = 631mm
Extended dimension = 995mm

- Lift capacity 1130kg max**
