

BRAKED WINCH 4:1

TE14WPB41

Winds in and winds out with no ratchet. The automatic braking system gives you full control over the load feeding in or feeding out without the need for ratchets.

Suitable for many applications.

BRAKED WINCH 5:1

TE14WB51

Automatic braking winch, winds in and winds out. With no ratchets to worry about, the automatic braking system gives you full control over the load feeding in or feeding out.

Suitable for many applications. Hot dip galvanised.

1:1

TE14W11

A small compact winch ideal for small craft or light general winching.

5:1 / 1:1

TE14W51

Medium sized winch also with direct 1:1 drive. Robust construction for craft in the 4.5m (14ft) to 5.8m (19ft) range and general winching.

3:1

TE14W31

A small compact winch for light boats up to 4.5m (14ft) and general winching.

15:1 / 5:1

TE14W151

Heavy duty winch with twin ratio gearing and the capacity to handle very large craft and extra heavy winching.

Only use winch ropes with a forged safety hook.

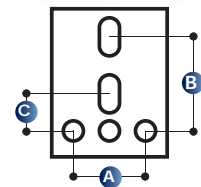

10:1 / 5:1

TE14W1051

Heavy duty winch with twin ratio gearing for large craft and heavy winching.

BASE MOUNTING SPECIFICATIONS RELATES ONLY TO MODELS: TE14W11, TE14W31, TE14W1051, TE14W51, TE14W151
