

# 2750KG & 3500KG

UP TO 6-YEAR WARRANTY

CM offer two capacities of heavy duty disc brakes sets: 2750kg & 3500kg. Both have 12" vented disc rotors. Designed for use on Class TB and Class TC trailers.

**Largest piston and brake pads in the industry – producing 30% more brake torque**

## UNIQUE FEATURES AND SPECIFICATIONS

Vented 12" rotors – run cooler and improve braking performance.

Guaranteed performance – exceeds CSA-D313 test requirements.

Supplied with marine quality seals.

Ceramic pads – improve performance plus 50% – 100% longer pad life.

Talk to our staff about our range of mechanical park brake options, required for trailers over 2500kg.

Fits 15" and 16" – 5.50" (140mm) PCD.

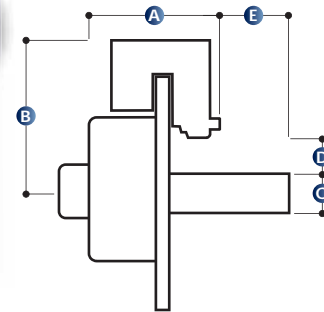

2750kg hydraulic vented disc brake

3500kg hydraulic vented disc brake
