

DEEMAXX & KODIAK 2¼" AND 2½" CALIPERS

Large pistons and pads for improved braking performance.

New Silicone piston boots perform better under extreme temperatures, and last longer than standard EPDM rubber boots.

PART NO	PISTON SIZE	BODY	FITTED TO
TE192KDBC225V	2¼"	Gold Line	1500kg, 1750kg,
TE192KDBC225	2¼"	Dacromet Coated	2000kg and 2750kg
TE192KDBC225SS	2¼"	Stainless Steel	brakes
TE192KDBC250	2½"	Dacromet Coated	3500kg brakes
TE192KDBC250SS	2½"	Stainless Steel	

Note: Gold Line calipers do not have stainless steel components.

INTEGRAL HYDRAULIC PARK BRAKE CALIPER 2¼"

TE192KDBC225SSPB (Stainless Steel)
TE192KDBC225HYPB (Cast Iron with Dacromet finish)

CM 2.25" caliper with an integrated mechanical park brake

Available as centre pull or forward pull

Used on trailers over 2500kg where a mechanical park brake is required by law

For use with CM 1500kg/1750kg/2000kg and 2750kg disc brake sets

FORWARD PULL

CENTRE PULL

REPLACEMENT HYDRAULIC CALIPERS

Both types compatible with old model brake systems.

TE192244

CM VIPER Hyd
Alloy 2 Piston Caliper

TE192246

Trigg style Australian design caliper

MECHANICAL CALIPERS

TE192KDBC225PB

You can purchase loose mechanical calipers as a spare part.
