

## BOAT BUDDY

Attaches boat to trailer automatically.

As your boat is driven onto the trailer the bow eye contacts the boat buddy and triggers a spring loaded stainless bolt through the bow eye, connecting the boat to the trailer.

Boat buddy is suitable if you can drive all the way onto your trailer and stop with the bow eye right below your snub block.

Most boats require an extended bow eye to allow room to add a winch hook.

Not suitable for use with cast bow eyes so we have included an extended length bow eye in each package. Most bow eyes can be easily changed.

Not recommended for boats with bow angles greater than 40°.

### TE16BB1 SMALL

For boats under 21ft.  
3/8" bow eyes.

### TE16BB2 LARGE

For boats 21ft and over.  
1/2" bow eyes.

## EZIGUIDE – SELF ALIGN BOAT LOADING

The EZIGUIDE will simplify launching or loading and will always guide your boat safely to the centre of your trailer.

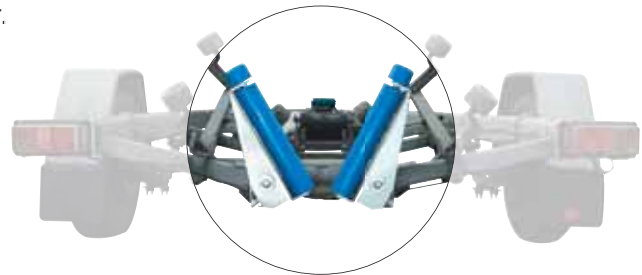

Single-handed launching and loading.

Avoid loading boat off the rollers and damaging it.

Galvanized finish. Rust resistant.

Mounting bolts and lock nuts included.

Easily installed, instructions provided.

PART NO	POWER BOAT LENGTH	SAIL BOAT LENGTH
TE16EG8	3.6m to 4.2m (12ft to 14ft)	4.2m to 4.8m (14ft to 16ft)
TE16EG10	4.2m to 4.8m (14ft to 16ft)	4.8m to 6.0m (16ft to 20ft)
TE16EG11	4.8m to 6.0m (16ft to 20ft)	6.0m to 8.5m (20ft - 28ft)
TE16EG13	6.0m to 8.5m (20ft - 28ft)	N/A
